`\*คำสั่ง\*`

```
cd /tmp
```

```
wget http://dvswitch.org/buster
```

```
chmod +x buster
```

```
apt-get update --allow-releaseinfo-change
```

```
./buster
```

```
apt-get update
```

```
apt-get install dvswitch-server -y
```

\*You now have the COMPLETE DVSwitch Server installed. This includes:\*

\*The Dashboard The System Monitor The configuration menu (dvs)\*

\*The dvs menu is not in the path of the Super User. It is in the path of a non-privileged user.\*

\*To run dvs as Super User:\*

```
cd /usr/local/dvs
```

```
./dvs
```
